Glacial Lakes Sanitary Sewer & Water District Utility Rate Study

Shelly Eldridge – Ehlers
Jeanne Vogt - Ehlers

05/30/2017

Background

- What are Utility Funds
 - Utility funds are used to pay for operations, maintenance, capital projects, and debt service costs related to utility infrastructure in the District
 - Funds are 100% supported with user charges and development fees
 - Treated like a business enterprise
 - No property tax levy or transfers from other County funds

Background

- Historical Background

- Owned and operated by Kandiyohi County
- Covers 57 square miles, plus three cities
 - Nearly 2,000 water and 3,000 sewer accounts
- Water Treatment and Wastewater Treatment plants put into service in 2000
 - \$45 million in infrastructure currently in place
- Water Treatment plant at 75% of full capacity in summer
- Wastewater Treatment plant at 90% of full capacity in summer
- Customer Base
 - **Wholesale Customers:** Cities of Spicer, New London, Kandiyohi
 - **Retail Customers:** Green Lake, Nest Lake, George Lake, Henderson Lake, Diamond Lake, and Lake Florida

Purpose of the Study

- Incorporate projected capital project costs for next five years
- Establish conservation rates for Water
 - Required per MN Statute 103G.291
- Need for sustainable rates and rate structure
 - Consistent from year to year
 - Defensible
 - American Water Works Assoc. (“AWWA”)
- Ensure long-term fiscal health of utility funds

Goals for Rate Study

- Cost of Service Study
 - Evaluate who is using water and when
 - Develop rates based on who is using resources
- Base Fees
 - Evaluate Equivalent Dwelling Unit (EDU's) vs. Meter Charges
- “Revenue neutral”
 - New structure does not increase District’s “bottom line” through 2017
 - Implement mid-year 2017
- Conservation Rates for Water Fund
 - Seasonal Rates
 - Higher rates in summer vs. winter
- Ease of administration
- Understood by rate payers

Findings

1. District has maintained appropriate fund balances for the Operating and Capital Funds
 - Capital Fund balances declining, but still acceptable for now
 - Minimal capital expenditures in recent years, paid with cash on hand
 - Green Lake still paying for existing debt
 - Majority will be paid off by 2021
 - Debt issued when new lake joins District
 - Lake specific debt
 - Lake Florida in 2006
 - Tri-Lakes (Nest, George, Henderson) in 2008
 - Diamond Lake in 2010

Findings

2. Staff has identified capital projects and equipment needs of \$11.875 million through 2022
3. District has a mixture of water and electric meters
 - Electric meters used for grinder stations for sewer only customers
4. Base fees used to pay for capital costs and existing debt of the system
 - Charges vary from year to year
 - Requires annual calculation for each commercial account
 - Rate based on previous year's average of New London and Spicer residential water and sewer sold

Current 2017 Rates

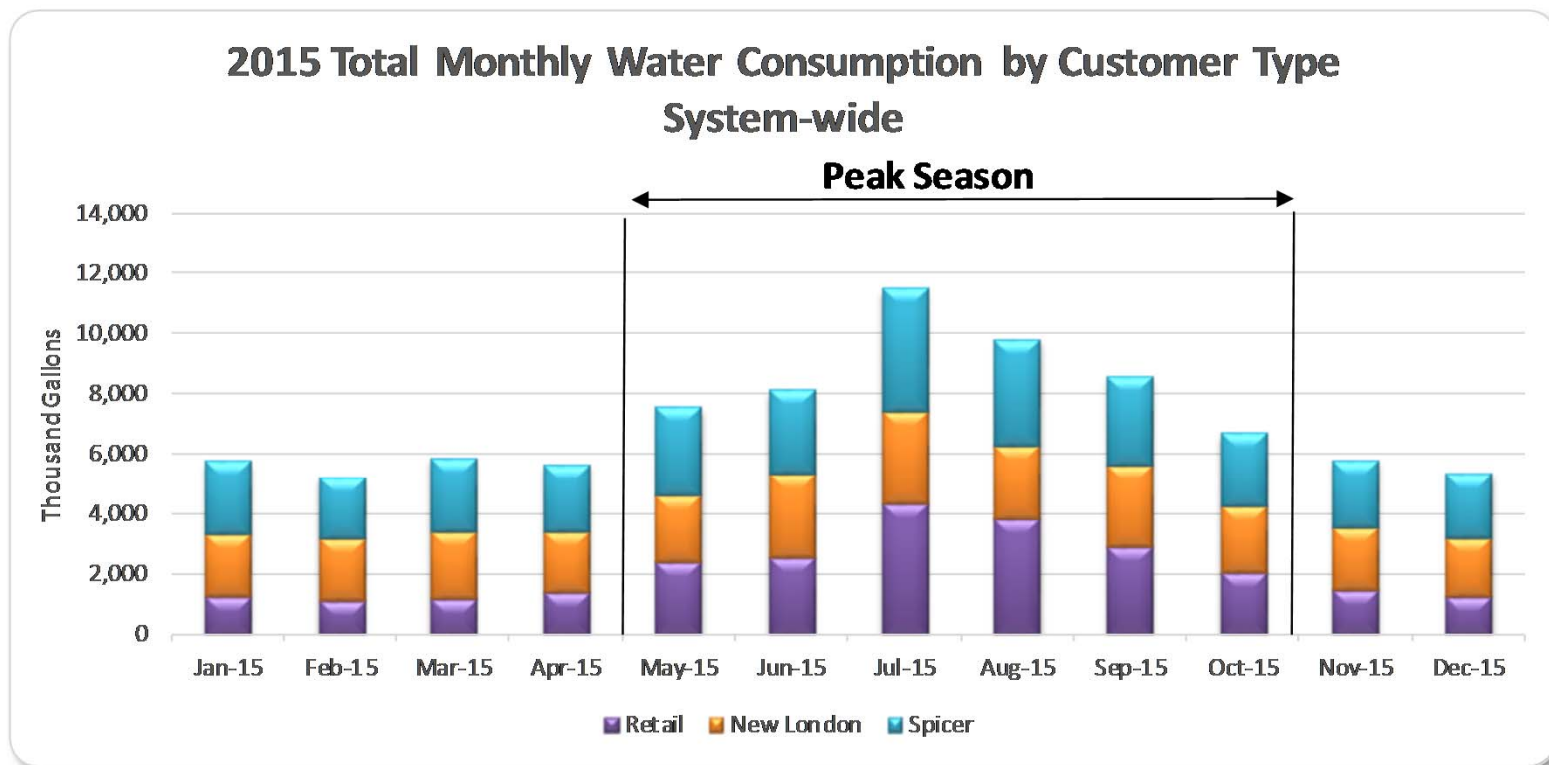

Description	Cities of Spicer & New London	City of Kandyohi	Green Lake Area	Lake Florida & Tri-Lakes	Diamond Lake
Base Fee:					
• Water – Res	\$13.60/EDU/mo.	N/A	\$12.00/EDU/mo.	N/A	N/A
• Water – C/I	\$13.60/EDU/mo.	N/A	\$13.60/EDU/mo.	N/A	N/A
• Sewer – Res	\$22.40/EDU/mo.	\$16.40/EDU/mo.	\$14.00/EDU/mo.	\$22.40/EDU/mo.	\$22.40/EDU/mo.
• Sewer – C/I	\$22.40/EDU/mo.	\$16.40/EDU/mo.	\$22.40/EDU/mo.	\$22.40/EDU/mo.	\$22.40/EDU/mo.
Assessments					
• Water	N/A	N/A	\$19.20	N/A	N/A
• Sewer					
Capital	N/A	N/A	\$100.80	N/A	N/A
Operating	N/A	N/A	\$176.00	\$60.00	\$60.00
Usage Rates:					
• Water	\$2.86/1,000 gal.	N/A	\$2.86/1,000 gal.	N/A	N/A
• Sewer	\$5.11/1,000 gal.	\$5.11/1,000 gal.	\$5.11/1,000gal.	\$5.11/1,000 gal. \$3.68/KWH	\$5.11/1,000 gal.

Notes:

1. Lake Florida residents pay additional \$1.00 per Base Fee. Goes to Lake Florida Reserve Fund.
2. North and SE residents of Nest Lake pay \$2.00/mo. to City of New London for meter replacement.

Who is using Water?

Seasons	Consumption	Percent
Winter (Off-Peak)	33,700	39%
Summer (Peak)	52,341	61%
Total	86,041	100%

Water Cost of Service Analysis

- Allocate costs of providing water to those who are using it.
 - Separates fixed from variable costs
 - Builds framework for rate structure design
 - Classify and allocate costs equitably
 - Develop defensible policies that are equitable and objective
- Seasonal Rate Structure
 - On-peak/off-peak approach
 - A.k.a. Summer and Winter rates
 - Simple, easy to implement and explain
 - Meets statutory requirements for conservation rates
 - Many properties around the lakes are seasonal users

Proposed 2017 Water Rates

Description	Time Frame	Wholesale Customers	Retail Customers	Projected Revenues
Fixed Charge	Monthly	\$2.11	\$2.11	\$49,146
Seasonal Rate	Nov. 1 – Apr 30	\$2.85/1,000 gal	\$3.44/1,000 gal	100,551
	May 1 – Oct. 31	\$3.31/1,000 gal	\$4.00/1,000 gal	185,776
Miscellaneous Revenues				27,035
			TOTALS	\$362,508
Total Costs per 2017 budget	28-394-903-2000-xxxx			\$355,240
	28-394-905-0000-6301			<u>\$7,500</u>
			TOTALS	\$362,740
Difference				\$(232)

Note:

1. Wholesale customers are the Cities of Spicer and New London
2. Retail customers are the properties in the Green Lake area

Sewer Rate Design

- Conservation not required for sewer, only water
- No “peak season” for wholesale customers
 - Recommend continuing a uniform rate for consumption
 - Recommend fixed rate per meter for fixed costs
 - Electric or water
- Other considerations:
 - Annual operating assessments for retail customers
 - Pays for non-city operating and maintenance of system
 - Current rates:
 - Green Lake = \$176.00 / year
 - Lake Florida = \$60.00 / year
 - Tri-Lakes = \$60.00 / year
 - Diamond Lake = \$60.00 / year

Proposed 2017 Sewer Rates

Description	Time Frame	Wholesale Customers	Retail Customers	Projected Revenues
Fixed Charge	Monthly	\$2.88	\$2.88	\$101,157
Annual Assessments	Annual	N/A	Green Lake - \$176.00 All Others - \$60.00	\$188,068
Usage Charge	Monthly	\$5.44/1,000 gal.	\$7.46/1,000 gal. \$5.45/KWH	\$675,185 102,776
			TOTALS	\$1,067,186
Total Costs per 2017 budget		28-394-903-1000-xxxx 28-394-905-0000-6301 28-380-950-0000-xxxx 28-385-930-0000-xxxx 28-394-905-0000-xxxx 28-396-920-0000-xxxx		\$871,988 7,500 29,800 42,390 100,363 <u>18,882</u> \$1,070,923
Difference				\$(3,737)

Base Fees (EDU's) vs. Meter Charges

- Base fees pay for debt service and capital costs
- Requires annual calculation
 - Input from Spicer and New London
 - Based on average annual prior year's water usage
 - Rates vary annually
 - All commercial accounts manually calculated each year
- Meter charges based on size of water meter
 - Larger meters pay more per month
 - Commercial accounts
 - Rates are more stable from year to year
 - Follows AWWA best practices

Proposed 2017 Meter Charges

Meter Charge - Water		Number of Accounts	Max Flow (gpm)	Equivalent Ratio	Monthly Charge	Annual Revenues
1	Meter Size					
2	5/8" & 3/4" Meter	1,880	20	1.00	\$ 12.75	\$ 287,640

2017 Rate Summary - Reconciliation

TOTALS BY FUND			
Description	Operating Fund 28	Capital Fund 29	Grand Totals
1 Total 2017 Revenues by Fund	\$ 1,402,659.66	\$ 1,118,008.80	\$ 2,520,668.46
2 Miscellaneous Revenues	27,035.00	-	27,035.00
3 SAC Charges	-	236,800.00	236,800.00
4 Special Assessments (bond related)	-	1,384,502.00	1,384,502.00
5 Total 2017 Revenues	\$ 1,429,694.66	\$ 2,739,310.80	\$ 4,169,005.46
6 Total 2017 Budgeted Expenditures	1,433,663.00	\$ 2,736,621.00	\$ 4,170,284.00
7 Revenues Over/(Under) Exp.	(3,968.34)	\$ 2,689.80	\$ (1,278.54)

Long-Term Plan – 2018 and beyond

- Incorporate capital projects
 - How to pay for projects
 - Combination of debt and cash on hand
- Growth Assumptions – 0.5%
 - 10 residential water accounts per year
 - 15 residential sewer accounts per year
- Sustainability of funds
 - Reserves of 6 month of operating costs plus 100% of next year's debt service payments
 - District can pay for emergencies without raising rates
 - Ensures sufficient cash to pay for debt service

Capital Projects

Year	Total Capital Projects	Total Projected Debt
2018	2,409,170	4,100,000
2019	2,376,416	0
2020	2,839,451	5,100,000
2021	3,669,159	450,000
2022	1,667,036	1,750,000
2023 ⁽³⁾	585,086	0
2024 ⁽³⁾	3,412,900	3,800,000
2025 ⁽³⁾	1,570,752	0
2026 ⁽³⁾	2,671,605	3,200,000
2027 ⁽³⁾	2,751,753	0

Major Capital Projects – \$9.45M

- Water Treatment upgrades – \$1.2 million through 2022
- Sewer Treatment upgrades - \$1.9 million through 2021
- Lift Stations - \$5.1 million through 2022
- Vehicles & Equipment - \$1.25 million through 2021

Notes:

- 1) All capital project costs inflated by 3% per year
- 2) County intends to issue debt every other year
- 3) Capital project costs beyond 2022 include placeholder amounts for the purposes of the study. **May not reflect actual projects.**

Existing and Projected Debt Service

- Can “wrap” 2018 debt around existing debt to lessen the total payments for 2019 & 2020.
- Projected annual debt service less than existing annual debt service

Operating Fund – Long-term Analysis

- 2018 rates and beyond are projections only. They assume all capital projects occur as scheduled and within the current budget. Final rates will be determined annually by GLSSWD.

Operating Fund – Long-term Analysis

- 10 new Water Connections / year
- 15 new Sewer Connections / year
- Annual revenues due to growth are \$7,500/year
- Reserves are six months of operating expenses

Capital Fund – Long-Term Analysis

- 2018 rates and beyond are projections only. They assume all capital projects occur as scheduled and within the current budget. Final rates will be determined annually by GLSSWD.

Capital Fund – Long-term Analysis

- Annual revenues due to growth are \$5,000
- Reserves are 100% of next year's debt service payments

Putting It All Together

- Implement Seasonal Rates so District is in compliance with state statute for water conservation
- Cost of Service study allocated rates based on who is using resources
- Replace base fees with meter charges
- Target Cash Reserves
 - Six months operating expenses + 100% of next year's debt service
- Proposed Debt
 - Capital project costs average \$2.4 million/year
 - Majority paid for with long-term debt
 - Provides capacity to meet equipment and infrastructure needs
 - Allows District to spread costs of infrastructure across current AND future users of the system
 - Capacity is defined on ability to raise rates than a definable debt limit

Putting It All Together

- District can expect to issue the following debt:

Year	10-Year Term	20-Year Term	Total
2018	\$375,000	\$3,725,000	\$4,100,000
2019	0	0	0
2020	0	5,100,000	5,100,000
2021	\$450,000	0	450,000
2022	0	1,750,000	1,750,000
2023	0	0	0
2024	0	3,800,000	3,800,000
2025	0	0	0
2026	0	3,200,000	3,200,000
2027	0	0	0

- 10-Year Term is for equipment purchases
- 20-Year Term is for infrastructure projects

Putting It All Together

Projected Annual Debt Service

Year	Existing Debt	2018A	2018B	2020	2021	2022	2024	2026	TOTAL
Amount:		375,000	3,725,000	5,100,000	450,000	5,100,000	1,750,000	3,800,000	
Term:		10 Years	20 Years	20 Years	10 Years	20 Years	20 Years	20 Years	
2017	2,705,856								2,705,856
2018	3,034,557								3,034,557
2019	3,073,133	43,961	238,948						3,356,043
2020	2,901,351	43,961	238,948						3,184,261
2021	2,061,367	43,961	238,948	342,800					2,687,077
2022	1,784,621	43,961	238,948	342,800	52,754				2,463,085
2023	1,288,224	43,961	238,948	342,800	52,754	123,132			2,089,819
2024	1,205,043	43,961	238,948	342,800	52,754	123,132			2,006,638
2025	1,201,748	43,961	238,948	342,800	52,754	123,132	273,456		2,276,799
2026	1,202,583	43,961	238,948	342,800	52,754	123,132	273,456		2,277,634
2027	1,202,493	43,961	238,948	342,800	52,754	123,132	273,456	235,462	2,513,005

- Assuming all capital projects occur on schedule and within budget, the District can expect future annual debt service payment to be lower than existing debt service.
